Courses Approved for CEUs, Continuing Education Credits

Holland, Michigan, November 10, 2006 – Bedrock Learning, Inc. announces additional association approval for CEUs. Members of organizations earn CEUs to keep certifications and licenses current.

Now both Bedrock Learning online courses and live workshops are approved for CEUs. Organizations granting CEUs include CEDIA, Custom Electronic Design and Installation Association, infoComm International, NBF AA, National Burglar and Fire Alarm Association, and DBPR-FL, Department of Business and Professional Regulation in the state of Florida.

The company offers industry introductory training and residential technology systems training, including structured wiring, audio distribution, and home networking through online courses and live workshops. Bedrock Learning provides a comprehensive training solution and business support materials for home technology installers, sales, customer support, and other residential technology professionals.

Online courses and live workshops approved for CEUs include the following:

<u>Bedrock Learning Online Courses</u>	<i>CEDIA</i>	<i>InfoComm</i>	<i>NBF AA</i>	<i>DBPR-FL</i>
<u>Introduction to Residential Technologies</u>	<i>1</i>	<i>-</i>	<i>.6</i>	<i>3 Tech Hours</i>

About Bedrock Learning

Bedrock Learning, Inc. provides foundational level training specifically for the residential technologies industry. Based on more than 25 years of training and curriculum development experience, the company was founded in 2004 by long time industry leader, Helen Heneveld. Bedrock Learning delivers students convenient 24/7 access to online training, including structured wiring, audio, and home networking, through its Online Training Center along with printed books, reference materials, and business support tools. Students completing online courses or approved workshops can earn CEUs from organizations such as CEDIA, infoComm, and NBFAA. Custom curriculum and online training/learning management system development are also among the services offered to the residential technology industry. Bedrock Learning may be reached at 616.335.6206 or at www.bedrocklearning.com.
